CMS Frontend/Page Facing Edits

Homepage (NOT FIXED)

1) SEO Page Title and Description do not work/failing to save.

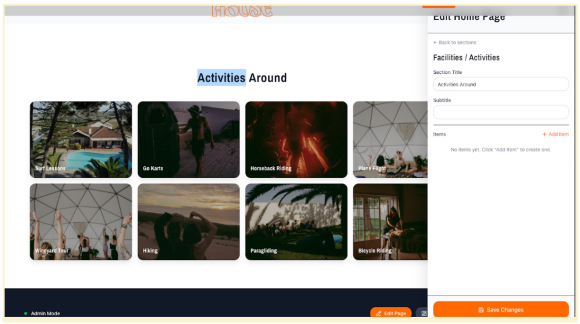

2) Surf weeks text edit space glitch

3) Activities around/facilities content is missing (NOT FIXED)

Still not working (4th of Jan test run)

Edijs Grins
9:59 AM Dec 26
Here it is not possible to add a space to enter new text, the only way to add text is by entering it and then making a space in between

Surf Weeks Page (NOT FIXED)

1) SEO Settings failing to save

2) Missing sections

Edijs Grins
10:02 AM Dec 26
Section is there, but no content to edit. Where does it come from then?

This is displayed on the homepage, note the dates are different than those displayed on the surf weeks page and the backend. Since there is no option to edit via CMS - where are these coming from?

Edijs Grins
4:07 PM Today

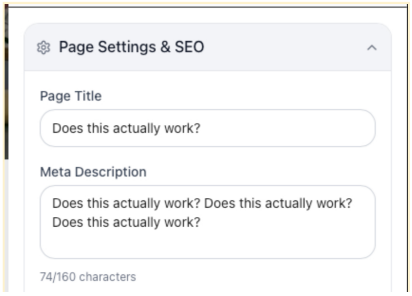

Seems to work now!

In this instance it saves, but does not change the page title/description. Also tested via incognito.

Edijs Grins
10:10 AM Dec 26

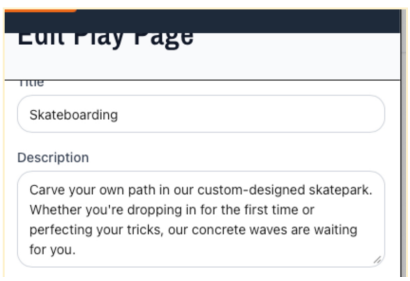

There is also another SEO block on this page with a different title, which is also not the title shown.

Edijs Grins
4:11 PM Today

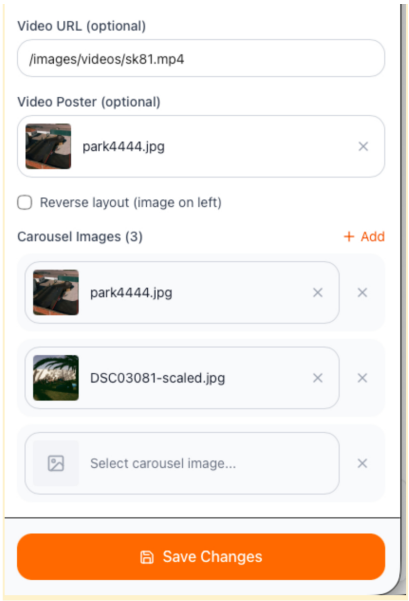

Now it shows 'Does this actually work' in the page title but when I edited it to show something new, it did not update.

2) Skateboarding section image upload

1) SEO TITLE/DESC

Lets me save after updating, but does not update the actual title of the page/desc.

Does not appear to have the actual activities editable/listed.

2) Sections on the site having no corresponding section on the CMS

All of these are missing an opportunity to update via the cms. You will notice I skipped some of the more complex sections as we're not expecting that to have a need to be updated.
